

I believe the service provided by K-LOVE radio station is in the public interest because I am one of many individuals who listens solely to K-LOVE radio. Not only do I listen to it in my car, I also listen to it at work 8 hours a day and at home in the mornings as I prepare for my day. My husband and daughters also listen to K-LOVE. There are others in my place of work that also listen to K-LOVE. It brings a sense of peace to the surrounding employees and a sense of joy and calmness while driving. If K-LOVE were to be displaced by another radio station, there are no other stations that provide the same level of enjoyment or devotion from its listeners.
